

Colten -

Mr Colten refers here to a discussion that we had about why the daughters had not made a complaint to the police.

~~He~~ He wanted to speak to the police to see whether he could get them to investigate.

I pointed out to Mr Colten that if he did that, then there was a risk that criminal proceedings would be taken and the press would be involved.

Even if he were found to be innocent, it is likely he would still be harassed by the press and may have to move and change his name to avoid the press.
